EXPERIENCE

Web Developer/ UX / Product Manager Intern

January 2016 – July 2016

step2rest.com Baeria Enterprises - San Diego, CA

- Designed and revamped company site using Bootstrap and the WordPress platform.
- Over the course of 6 months, pitched ideas, mockups of design layouts and business plans to the executive team. Then was responsible for overhauling the entire website's user experience, simplifying the site and thinking through user flows.
- Managed and led a small team of interns to meet deliverable product marketing deadlines.

IT assistant/Clerk

September 2013 – March 2014

UCSD Police Department - San Diego, CA

- Resolved general department's computers and technological issues.
- Instructed new employees on how to operate certain data systems and programs for police work filing.
- Maintained data upkeep of administrative work for staff members and overall organization.

COURSE PROJECTS

Web Developer / Project Manager

March 2016 – June 2016

suhdude.herokuapp.com - SUHDude, Visual Design App

- Developed a data visualization web application to assist entrepreneurs in finding the best ideas and locations for their future businesses.
- Managed a small team of 4 from the design phase, idea generation, and application prototyping. Deployed a functional prototype within 5 weeks.

Web Developer / Project Manager

January 2016-March 2016

tastebuddies.herokuapp.com/cook - Tastebuddies, Cooking Guide App

- Developed a mobile web application to help students find recipes based on ingredients they have.
- Led a small project team of 3 from developing the idea and discussing the application's functionality.
- Researched and developed the "gamification" concept that users would want with the application. Users would "grow" the character as the application is utilized with increased frequency.
