EXPERIENCE

Web Developer/ UX / Product Manager Intern   Jan 2016 – June 2016
step2rest.com Baeria Enterprises - San Diego, CA
- Designed and revamped company site using Bootstrap and the WordPress platform.
- Over the course of 6 months, pitched ideas, mockups of design layouts and business plans to the executive team. Then was responsible for overhauling the entire Step2Rest e-commerce site's user experience, simplifying the site and thinking thru user flows.
- Managed and led a small team of interns to meet deliverable product deadlines.

COURSE PROJECTS

Web Developer / Project Manager   March 2016 – June 2016
suhdude.herokuapp.com - SUHDude, Visual Design App
- Developed a data visualization web application to assist entrepreneurs in finding the best ideas and locations for their future businesses. The application utilized NodeJS, D3 graphical JS library, JSON data feed, Handlebars, Facebook and Twitter role based access, HTML, CSS and jQuery.
- Managed a small team of 4 from the design phase, idea generation, and application prototyping. Deployed a functional prototype within 5 weeks.
- Learned about database restrictions, MongoDB, sockets for API.

Web Developer / Project Manager   January 2016-March 2016
tastebuddies.herokuapp.com/cook - Tastebuddies, Cooking Guide App
- Developed a mobile web application to help students find recipes based on ingredients they have. The application utilized HTML, CSS, Bootstrap, jQuery and JSON data.
- Led a small project team of 3 from developing the idea and discussing the application's functionality.
- Deployed a functioning prototype within 10 weeks.
- Researched and developed the "gamification" concept that users would want with the application. Users would "grow" the character as the application is utilized with increased frequency.
